

# BL ENTERPRISES

## YOUR TRUSTED PARTNER IN CONTROL PANEL SOLUTIONS

*Engineered for seamless process automation, our industrial control panels are built for safety, durability, and high performance across heavy industrial applications.*

ROBUST  
CONSTRUCTION

MINIMAL MAINTENANCE

HIGH EFFICIENCY

SAFE & RELIABLE

## OUR CONTROL PANEL RANGE

01

### DCS CONTROL PANEL (Distributed Control System)

Designed for heavy-duty industrial process automation, our DCS panels offer localized control architectures for superior safety and zero system-wide failure points.

- **Advanced Cable Management:** Segregated high/low voltage channels with heavy-duty wiring ducts.
- **High-Density I/O Marshalling:** Cleanly interfaces thousands of field instruments with structural terminal block layouts.
- **Thermal Engineering:** Integrated cooling louvers and industrial ventilation fans.

02

### MOTOR CONTROL CENTER (MCC) & STARTER PANEL

Engineered to safely manage, start, and protect high-horsepower industrial electric motors from a single, centralized location.

- **Modular Multi-Bay Construction:** Compartmentalized drawer designs isolating individual starters for safety.
- **Heavy-Duty Busbar Chambers:** High-conductivity copper busbars braced against fault currents.
- **Front-Panel Interface:** Fitted with precise analog/digital voltmeters, ammeters, and E-Stops.

## WHY CHOOSE US?

✓ **Premium Quality Materials:** Built strictly using industry-standard, rugged metallic enclosures and certified switchgear.

✓ **Fully Customizable:** Enclosure configurations engineered to match your exact electrical layouts.

✓ **Precision Engineering:** Neat wiring layouts, clean termination, and permanent wire tag identification.

✓ **Timely Delivery & Support:** Competitive pricing backed by responsive engineering support systems.
